## EXECUTIVE SUMMARY

Blending an innovative mindset, impact oriented strategies, and human centered leadership with a solid background in Data Visualization, Business Intelligence, and Data Science to support teams and individuals in crafting data-driven results

## PROFESSIONAL EXPERIENCE

### **Georgetown University, SCS | Data Scientist** **Washington DC - 02/2020 to 12/2020**

- ☀ Leading a team of 6 data scientists to research the effect of wildfires on climate change.
- ☀ Working as a member of the multi-disciplinary team to predict wildfires across the United States using supervised and unsupervised machine learning algorithms and data from various government organizations.

### **Logi Analytics | Account Solutions Architect** **McLean, VA - 10/2017 to 10/2018**

- ☀ Attentively listening to the requirements of every customer, intuitively assessing their needs, and collaborating with stakeholders from multiple departments to develop custom analytics solutions for customers and to identify opportunities for business growth.

- ☀ Maintaining trusted relationships with clients including c-level executives, directors, product managers, and developers

### **Ofinno Technologies | Operations Manager** **Reston, VA - 09/2015 to 9/2017**

- ☀ Joined the startup at the time of their headquarter establishment and served as the sole responsible person for establishing the operations and HR of the company from ground zero

### **Genesys | SaaS Professional Services Consultant** **Chantilly, VA - 05/2014 to 09/2015**

- ☀ Working in a cross-functional team environment and collaborating with both functional and technical members to provide call center solutions for clients.
- ☀ Working closely with sales engineers, customer success managers, and clients to gather requirements, estimate Level of Effort (LOE), build Statement of Work (SOW) and offer solutions
- ☀ Using Agile Methodologies during software development life cycle to manage projects and accelerate delivery

### **George Mason University | Systems Engineering, MSc.** **Fairfax, VA - 9/2010 to 12/2013**

*Assessment of Migration of NOVEC software applications to Cloud Environment, Project Sponsor: Lockheed Martin*

- ☀ Researched and proposed effective end-to-end Cloud migration strategy and cloud solution to the client
- ☀ Led project planning initiatives and resolved conflicts in a team of four systems engineers with different backgrounds

### **Telarix | Business Intelligence Application Developer** **Vienna, VA - 01/2008 to 11/2009**

- ☀ Partnering with post-sales team and account management in providing continuous service to existing customers.
- ☀ Enabling Business to Business (B2B) communications using Business Intelligence (BI) insights.

### **comScore Networks | Data Stream Engineer** **Reston, VA - 05/2006 to 07/2007**

- ☀ Took proactive measurements to enhance clients' individualized platforms and products to meet the updates in the industry.
- ☀ Developed more than 200 custom data mining agents to capture unduplicated behaviors of online bill payments, bank account visits, and e-servicing applications
